Do I-PASS for FAIR?
“We want to be FAIR in 5 years’ time”
Do I-PASS for FAIR?

Definition

A FAIR Enabling Research Organization (FERO) is a research organization with a dedicated staff of data professionals, which has implemented policies on technical, infrastructural and organizational facilities and services to enable the researchers to create and publish FAIR data as a result of their research.
DO I PASS FOR FAIR?

DOES YOUR ORGANIZATION...

1. POLICY
   ...have a FAIR research data policy?

2. SERVICES
   ...have a DCC which provides services to allow research(ers) to comply with FAIR?

3. SKILLS
   ...acknowledge that FAIR capacity building requires specific roles and skills?

4. INCENTIVES
   ...have incentives for FAIR data?

5. ADOPTION
   ...have adoption of FAIR?

Menti results from the questionnaire during the Portuguese session on the next three slides
My organization is FAIR-enabling at level...

- Beginner: 15
- Intermediate: 6
- Advanced: 1
Are the FAIR principles explicitly mentioned in your organization's Research Data policy?

- 16: The FAIR principles are not explicitly mentioned, but there is a reference to sustainable and long-term storage
- 1: The F and the A are explicitly mentioned
- 3: All FAIR principles are explicitly mentioned (or there is an explicit reference to the overarching Open Science concept)
What are your organization's most important challenges in becoming FAIR-enabling?
Menti results from the questionnaire during the Dutch session (took place on November 3) on the next three slides
What are your organization's most important challenges in becoming FAIR enabling?
My organization is FAIR enabling at level

- Beginner: 15
- Intermediate: 29
- Advanced: 12
Are the FAIR principles explicitly mentioned in the data (or research data) policy of your organization?

- 6 The FAIR principles are not explicitly mentioned, but there is a reference to sustainable and long term storage
- 5 The F and A principle are explicitly mentioned
- 36 All FAIR principles are explicitly mentioned (or there is an explicit reference to the overarching Open Science concept)
