Iscte – Knowledge and Innovation

- Provide optimal conditions for collaborative, interdisciplinary and co-creative work
- Provide a Data Centre with the capacity to meet the needs in terms of data storage, backups, and long-term preservation. Reusability of data is a goal
- Provide certification to the internal data stewards' network

Essentials 4 Data Support Course

datasupport.researchdata.nl/en/

Online only or full course

Expert presentations, feedback to peers' assignments, and coaches' interactions

Deliver six assignments and make a final presentation to be certified

Two different working groups

18 April in Delft until 1 June in SURF - Utrecht

Assignments related to each phase of research life cycle
